

The first of these is the fact that the world is not a uniform whole, but a collection of diverse and often conflicting interests. The second is the fact that the world is not a static entity, but a dynamic one, constantly changing and evolving. The third is the fact that the world is not a simple, linear system, but a complex one, with many interconnected parts and a high degree of uncertainty. The fourth is the fact that the world is not a single, unified entity, but a collection of many different cultures, languages, and peoples. The fifth is the fact that the world is not a single, unified system, but a collection of many different systems, each with its own rules and norms. The sixth is the fact that the world is not a single, unified entity, but a collection of many different entities, each with its own interests and goals. The seventh is the fact that the world is not a single, unified system, but a collection of many different systems, each with its own rules and norms. The eighth is the fact that the world is not a single, unified entity, but a collection of many different entities, each with its own interests and goals. The ninth is the fact that the world is not a single, unified system, but a collection of many different systems, each with its own rules and norms. The tenth is the fact that the world is not a single, unified entity, but a collection of many different entities, each with its own interests and goals.

REKAPITULACIJA

Rjohei Arisu je zalutao u Ničiju zemlju, u kojoj mora da pobedi u igrama kako bi preživeo.

Na plaži počinje „Lov na vešticu“, i dotadašnji raj postaje pakao.

Odjekuju pucnjevi i jecaji dok se u tajnosti vode bitke koje će dovesti u iskušenje svačija dotadašnja uverenja.

Usred sveopšteg meteža Arisu i Usagi će se udružiti sa Kodaijem i Asahi u pokušaju da otkriju ko je veštica. An, koja je radila kao forenzičarka, identifikovaće vešticu preko otisaka prstiju.

Shvativši ko je veštica, Arisu kreće u hol na prizemlju kako bi završio igru, ali Aguni ga nalazi... Ko je veštica!?
